the only truth that brings the present into the future

Special Silicone Solutions for your Industry
The Only Truth that Brings the Present into the Future

Our business approach aim is to supply high quality products timely with optimum prices with a wide range of products under own trade name series.

OxoChem which develops and optimizes the innovative silicone products according to the industry feedbacks and market needs, provides full technical service to all our valuable customers for all OxoChem’ s products.

Our Consultancy Service

We have over 10 years of experience working in all segments of the chemical industry, including:

- Special Chemicals
- Polyester Poliol Manufacturing
- Agricultural Chemicals
- Release agents
- Macro, Micro and Hydrophilic Silicone
- Textile Chemicals
- Water Repellents
- Auto Care Chemicals
- Hygiene Chemicals
- Basic and Intermediate chemicals

We make the chemicals industry better by creating sustainable business value. We are dedicated to maintaining our position as the world’s leaders.

Auto & Shoe Care

✓ Silicone oil and derivatives, which reflect light, leave a wet and shiny look on vinyl, leather, rubber and hard surfaces.
Auto & Shoe Care

✓ It is possible to lay down silicone oil and derivates properties;

- Ease of application
- Polishing and High gloss
- Excellent protection
- Depth of Gloss and Color
- More intimate contact between the abrasives, solvents and surface

✓ We offer standard and special solutions for auto & shoe care.

- High gloss
- Water repellency
- Excellent durability
- Provides a smooth and lower friction surface

Auto & Shoe Care

✓ Auto & Shoe Polishing

✓ Lavidasil® ASP 8185 PM is a non-ionic macro emulsion which has been specially formulated for use as polish ingredient for auto & shoe care and suitable for use on any dashboard, tire, boats, shoes, luggage, golf bags, pocketbooks and camera bags and vinyl surfaces.

Lavidasil® ASP 8120 micro emulsion is effective as a protective treatment and gloss agent on many automotive surfaces, such as tires, vinyl tops, dashboards, station wagon side panels, and upholstery. It also performs well in non-automotive application like boats, shoes, luggage, golf bags, pocketbooks and camera bags.

✓ Lavidasil® ASP 8115 AM macro emulsion, which may be formulated for use as polish ingredient for auto & shoe care and suitable for use on any dashboard, tire, boats, shoes, luggage, golf bags, pocketbooks and camera bags and vinyl surfaces. Applying on clean and dry surfaces gives better results.
Auto & Shoe Care

✓ Auto Rain Free & Speed Wax
  ✓ Lavidasil® ARF 2100 is a solvent based water repellents create an invisible, effective and extremely smooth film on various glass surfaces, such as car window panes and mirrors, may be easily diluted with solvent at any time.
  ✓ Lavidasil® ARF 4100 is concentrate, water based water repellents create an invisible, effective and extremely smooth film on various glass surfaces, such as car window panes and mirrors.
  ✓ Lavidasil® ASW 8100 which is a concentrate silicone emulsion for car care, enables the polish to “plate” itself on the substrate. This product provides outstanding bonding and adhesion properties to automotive finishes, allowing repeated washings and adverse weather conditions.
✓ **Auto Glass Cleaner & Antifog and Antifreeze Additive**

✓ **Lavidasil® AFG 8100** which dries within seconds, leaves behind a transparent film. This product does not smear that has excellent antifog and cleaning properties.

✓ **Lavidasil® AA 8390** is a perfect product used in antifreeze manufacturing to protect the radiators from rust and lime and prevents against to the hard water. This product provides against corrosion by forming a thin film layer on the surface of radiator and Because of it’s ecological environment, does not give any toxic materials.

✓ **Silicone Oils & Antifoams**

✓ **Lavidasil® S Oil Series** series are available in both standard and high viscosity grades of 50, 100, 350, 1.000, 5.000, 12.500, 60.000 cSt and etc. The standard viscosities offer a wide range of thermal stability, high resistance to shear, high oxidative resistance, and low viscosity change from temperature. High viscosity silicone fluids, which provide excellent depth of gloss and improvements in durability and water resistance useful in solvent-based formulations, blend of intermediate and high-viscosity fluids recommended to achieve a good balance in gloss.

✓ **Lavida® TSE 720** silicone antifoam emulsion, which can be used for shoe care, has excellent durability and highly stable under different conditions. This product is effective in destabilizing macro and micro foam and very effective at very low concentration.
